

I oppose the NAB petition that seeks to stop XM from providing XM Instant Traffic & Weather. I greatly benefit from listening to XM Satellite Radio and its traffic and weather channels.

Satellite radio provides content variety and broadcast quality that is NOT available elsewhere by a new technology that CANNOT be duplicated by traditional AM, FM or TV broadcast.

I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge rejection of the NAB's petition 04-160 and support XM's ability to provide programming that I demand and deserve.
